PROFILE

Full Stack Developer and Java Backend Engineer with hands-on experience building scalable applications in health tech, ERP, and business automation. Skilled in Java Spring Boot, REST APIs, React.js, Node.js, TypeScript, and PostgreSQL, with a focus on secure authentication (JWT) and performance optimization.Oracle Cloud Infrastructure certified, with experience delivering solutions for UAE clients. Strong in end-to-end development, Agile practices, and building efficient, business-focused systems. Seeking a Full Stack Developer role in Dubai to contribute impactful solutions.

PROFESSIONAL EXPERIENCE

- FULL-STACK DEVELOPER & IT SUPPORT

Phoenix dison tec llc

04/2025 – Present | Dubai , UAE

  - Designed, developed, and maintained scalable **full-stack business applications** using **React, Node.js, TypeScript, PostgreSQL, PHP, and WordPress**
  - Architected and developed scalable **ERP** solutions including comprehensive **HRMS, CRM, Payroll**, and Inventory Management modules using React.js frontend, Node.js backend, TypeScript for type safety, and **PostgreSQL** for robust data management, serving multiple live **UAE business** clients with diverse operational requirements
  - Developed and integrated **RESTful APIs** for secure and efficient frontend–backend communication
  - Implemented **authentication, role-based access control, database optimization, and performance enhancements**
  - Automated internal workflows and business processes using **n8n and OpenAI API integrations**

SOFTWARE DEVELOPER

MOLSYS PVT LTD

09/2024 – 03/2025 | India

  - Designed and developed **Java Spring Boot backend applications** for live production systems
  - Built and tested **RESTful APIs** enabling seamless integration between frontend and backend systems
  - Actively contributed to **DNAlyst – Health Tech Platform**, a full-stack application for managing health-related data
  - Developed secure backend modules for DNAlyst using **Spring Boot, MySQL, JPA, and JWT authentication**
  - Optimized database queries and backend logic, improving application performance and response times
  - Worked in **Agile development cycles**, participating in sprint planning, stand-ups, and deployments

FULL-STACK DEVELOPMENT INTERN

Yenepoya Technology Incubator

05/2024 – 08/2024 | India

  - Developed responsive web applications using **HTML, CSS, JavaScript, PHP, and MySQL**
  - Assisted in full-stack development tasks including frontend UI enhancements and backend logic
  - Designed and optimized **database schemas and SQL queries** for better performance
  - Ensured **cross-browser compatibility and mobile responsiveness**
  - Gained hands-on experience working in **Agile team environments**
